**GBA Health Network Systems
Partners with Keiser Computers Inc. to
Offer Drs Document Retrieval System**

Warwick, RI – March 27, 2008 – GBA Health Network Systems has entered into a strategic business partner relationship with Keiser Computers, Inc., of Ft. Lauderdale, FL to offer a paperless office solution to its customers.

Drs Document Retrieval System from Keiser Computers is a cost-effective solution that enables a medical office to “go paperless” while providing complete patient information – from anywhere, at any time.

“Our entire customer base, including medical offices on legacy practice management products as well as our newer customers using the MEDfx browser-based PM, could benefit by adding the Drs product to its office’s workflow,” said Colin P. Barry, GBA President/CEO. “We expect our customers will welcome the opportunity to modernize their practices with the Drs electronic charts system.”

“We are extremely pleased about partnering with a company like GBA Health Networks,” said Jeffrey M. Keiser, President of Keiser Computers, Inc. “Drs Document Retrieval System can revolutionize any medical office. We look forward to demonstrating to GBA’s customers the efficiencies of having all their patient information at their fingertips,” said Mr. Keiser.

Drs Document Retrieval System interfaces seamlessly with practice management systems now in use by GBA customers and is built into MEDfx.

About GBA

GBA Health Network Systems, a privately-held company since 1984, is dedicated to the modernization and automation of today's medical office. During its 24 years of continuous operation, the company has provided ambulatory solutions to over 10,000 practices nationwide. GBA's flagship product, MEDfx, is a browser-based Enterprise practice automation solution with a ground breaking design allowing easy integration to any clinical solution – ranging from Electronic Health Records (EHR) to community Health Information Exchange (HIE).
