## **GBA Announces General Availability of MEDfx v3.0**

**Warwick, RI – July 1, 2008** – GBA Health Network Systems announced today the general availability of its latest version of MEDfx – v3.0. MEDfx is the company’s flagship practice automation solution.

Utilizing the new release are GBA customers across the nation – ranging from small physician offices to clinics that are part of a regional Health Information Exchange (HIE).

Among the features of MEDfx v3.0 are electronic remittance advice (ERA) for payment application, which allows for auto payment posting by batch or by date of service, and eligibility, where patient eligibility for medical services may be checked from the scheduling module.

GBA’s remaining MEDfx customers will in coming weeks attend web-based training as a prerequisite to downloading the new version.

### **About GBA Health Network Systems**

GBA Health Network Systems, a privately-held company since 1984, is dedicated to the modernization and automation of today’s medical office. During its 24 years of continuous operation, the company has provided ambulatory solutions to over 10,000 practices nationwide.

GBA’s flagship product, MEDfx, is a browser-based enterprise practice automation solution with a ground breaking design allowing easy integration to any clinical solution – ranging from Electronic Health Records (EHR) to community Health Information Exchange (HIE).
